MANUTENZIONE

Non vanno assolutamente utilizzati detergenti che contengano cloro o a base di acido cloridrico, acido muriatico o prodotti anticalcare in quanto andrebbero ad alterare la brillantezza del prodotto.

MANUTENZIONE LEGNO

Il legno é un materiale vivo e come tale può avere mutamenti nel tempo di colore e di dimensione, gli oggetti che vengono appoggiati sul piano, devono essere spostati periodicamente poiché il legno é sensibile alla luce e si ossida, creando differenze di colore tra le parti esposte alla luce e quelle coperte. Per la normale pulizia utilizzare un panno morbido leggermente umido. Non usare detersivi abrasivi, solventi, ammoniaci, acetone o petrolio. Per la rimozione di macchie utilizzare una soluzione di acqua e sapone neutro, avendo l'accortezza di asciugare subito le superfici bagnate.

INSTRUCTIONS FOR THE END CUSTOMER

USE

The product is intended to be used in the inside and for the purposes it was created for.

MAINTENANCE

It is recommended not to use metal sharp tools or abrasive clothes to eliminate dirt from the surface, because they could damage the same. Do not absolutely use detergents containing chlorine, muriatic acid, hydrochloric acid or descale detergents which can damage the surface brilliance.

MAINTENANCE WOOD

Wood is a living material and therefore susceptible to slight colour and dimension changes. As the wood is sensitive to light and oxidizes, any item standing in the same place on the top for a long period of time can create colour differences between the covered and the exposed parts, so they should be moved periodically. Clean it with a slightly damp soft cloth. DO NOT use any chemicals or harsh detergents such as ammonia. To remove stains, wash the top with mild soap and water, and rinse. Dry the top thoroughly.

WARNING

Do not absolutely move the product dragging it or lifting it by gripping the top, but disassemble it and then place it in the new site, protecting the parts that could be damaged.

DISPOSAL

Once discarded, neither the product nor its components should be dispersed in the environment, but rather consigned to public disposal systems.
