Design ROMANI SACCANI ARCHITETTI ASSOCIATI

DIADEMA SP K3

Diadema è un sistema di illuminazione basato sul singolo elemento della canna in puro vetro. Combinando canne di diverse dimensioni, la luce si riflette e si trasmette in una sensazione di movimento. La montatura metallica permette numerose varianti e ampi margini per versioni su misura, sempre a scomparsa, grazie al sistema di fissaggio ideato appositamente per questo modello.
